Report Date
June 2026

1. Executive Summary

This report presents a comprehensive architectural review of a proposed two-storey residential house situated on a 25'-0" × 50'-0" plot in Islamabad. The design encompasses a ground floor, first floor, mumty (penthouse) level, and associated open areas, with a total built-up area of 2,022.38 square feet across all floors.

The project has been designed in accordance with standard construction practices and CDA (Capital Development Authority) guidelines. All structural elements, including RCC beams, slabs, and lintels, are specified at appropriate levels. The design prioritises efficient space planning, natural light and ventilation, and a clean contemporary elevation.

Project Type	Proposed Residential House
Location	Plot No. 000, Street No. 000, Sector 000, Islamabad
Plot Dimensions	25'-0" × 50'-0" = 1,250.00 SFT
Total Built Area	2,022.38 SFT (all floors combined)
Number of Floors	Ground Floor + First Floor + Mumty
Water Connection	3/4" Ø (as per CDA requirements)
Structural System	RCC Frame with Brick Masonry
Drawing Reference	Submission Drawings (E-1 / E-2)

2. Site & Plot Information

The plot is located in a planned residential sector of Islamabad. The site is rectangular with a north-south orientation as indicated by the north point on the full drawing sheet.

2.1 Plot Details

Plot Frontage	25'-0" (along street)
Plot Depth	50'-0"
Total Plot Area	1,250.00 SFT
Road Level	± 0'-0"
Ground Level	+2'-0" above road
Porch Level	+1'-0" above road

2.2 Mechanical Disposal & Services

- Underground water tank (U.G.W.T.) provided at ground floor level
- Overhead water tank (O.H.W.T.) positioned on mumty roof
- Septic tank, soak pit, manhole, and pipe layout detailed on drawing sheet
- 3/4" Ø water connection required and certified for connection to main CDA lines

3. Space Programme & Area Schedule

The schedule of areas below summarises all covered spaces as extracted from the submission drawings. All dimensions are in feet and area figures are in square feet (SFT).

3.1 Ground Floor

Space	Dimensions	Area (SFT)
Drawing Room	10'-0" × 11'-6"	115.00
Bedroom (Left)	11'-4½" × 10'-9"	~122.19
Bedroom (Right)	11'-4½" × 10'-9"	~122.19
Washroom (L)	7'-0" × 5'-0"	35.00
Washroom (R)	7'-0" × 5'-0"	35.00
Kitchen	5'-9" × 8'-6"	48.94
U.G. Water Tank	Built-in	—
Total GF Covered	25'-0" × 27'-3"	681.25

3.2 Porch

Space	Dimensions	Area (SFT)
Porch	12'-9" × 12'-3"	156.19

3.3 First Floor

Space	Dimensions	Area (SFT)
Bedroom (Left)	11'-4½" × 10'-9"	~122.19
Bedroom (Right)	11'-4½" × 10'-9"	~122.19
Washroom (L)	7'-0" × 5'-0"	35.00
Washroom (R)	7'-0" × 5'-0"	35.00
Kitchen	5'-9" × 8'-6"	48.94
Total FF Covered	25'-0" × 41'-0"	1,025.00

3.4 Mumty (Penthouse / Top Floor)

Space	Dimensions	Area (SFT)
Mumty Room	11'-9" × 10'-0"	117.50
O.H. Water Tank	Roof-mounted	—

3.5 Grand Total Summary

Floor / Zone	Area (SFT)	Notes
Ground Floor Covered	681.25	Incl. bedrooms, kitchen, washrooms, drawing room
Porch	156.19	Semi-covered entrance porch
First Floor Covered	1,025.00	Same layout as GF, extended front
Mumty Covered	117.50	Staircase room + O.H.W.T.
GRAND TOTAL	2,022.38	All levels combined

4. Architectural Floor Plans

4.1 Ground Floor Plan

The ground floor houses the main living and service spaces. The drawing room opens from the porch on the south facade. Two bedrooms with attached washrooms are located on either side, and the kitchen is positioned adjacent to the rear bedroom cluster. An underground water tank is incorporated within the plot boundary.

Figure 1 — Ground Floor Plan (E-1)

4.2 First Floor Plan

The first floor replicates the ground floor bedroom/bathroom/kitchen arrangement with an extended structural footprint (25' × 41'). The staircase, with a tread of 10" and riser of 6-5/16", connects both floors. RCC beams are highlighted at their respective positions.

Figure 2 — First Floor Plan (E-1)

5. Building Elevations

5.1 Front Elevation (E-1)

The front elevation presents a symmetrical two-storey facade with distinct level zones: Road Level ($\pm 0'-0"$), Porch Level ($+1'-0"$), Ground Level ($+2'-0"$), First Level ($+12'-0"$), Roof Level ($+22'-0"$), and Mumty Roof Level ($+31'-0"$). Windows are aluminium glazed units, and the main gate features steel grading. Parapet walls and railings top the roof and first-floor slab.

Figure 4 — Front Elevation (E-1)

5.2 Side Elevation (E-2)

The side elevation confirms the same floor-to-floor heights and indicates window proportions on the side facade. Aluminium glazed windows are used consistently. The overall building height to mumty roof is approximately 31'-0" above road level.

Figure 5 — Side Elevation (E-2)

6. Building Section

6.1 Section A-A

Section A-A cuts through the full depth of the building, revealing the internal spatial arrangement across all levels. Key structural elements visible in the section include:

- RCC slabs at Ground Floor, First Floor, and Roof levels
- Lintels over openings at each floor
- Staircase geometry: tread (T) = 10", riser (R) = 6-5/16"
- Parapet walls at roof perimeter
- Railing at first floor and roof terrace
- Clear floor-to-floor heights confirming level schedule

SECTION A-A

Figure 6 — Section A-A

7. Schedule of Openings

The following table lists all doors, windows, and ventilators as specified on the submission drawings.

Mark	Size	Description	Type
D-1	3'-0" × 7'-0"	Main Entrance Door	Wooden Door
D-2	2'-6" × 7'-0"	Internal Room Doors	Wooden Door
D-3	5'-0" × 7'-0"	Wide Opening Door	Wooden Door
W-1	5'-0" × 4'-0"	Large Window	Aluminium Glazed Window
W-2	3'-6" × 4'-0"	Standard Window	Aluminium Glazed Window
W-3	6'-0" × 4'-0"	Wide Window (FF)	Aluminium Glazed Window
V-1	2'-0" × 2'-0"	Ventilator	Aluminium Glazed Window

8. Structural Notes & Certifications

8.1 Structural System

- RCC (Reinforced Cement Concrete) frame construction
- Brick masonry infill walls
- RCC beams at indicated positions on each floor plan
- RCC slabs at ground, first, and roof levels
- Lintels provided over all door and window openings
- Stair constructed with RCC — T=10", R=6-5/16"

8.2 Level Schedule

Road Level	± 0'-0"
Porch Level	+1'-0"
Ground Floor Level	+2'-0"
First Floor Level	+12'-0"
Roof Level	+22'-0"
Mumty Roof Level	+31'-0"

8.3 Certifications (as per Submission Drawing)

- Soundness and stability of the structure is certified.
- 3/4" Ø water connection is required for this plot.
- All service lines will be effectively connected with main CDA lines.

9. Conclusion

The proposed residential house on Plot No. 000, Street No. 000, Sector 000, Islamabad is a well-planned two-storey dwelling with a total built-up area of 2,022.38 SFT on a 1,250.00 SFT plot. The design efficiently utilises available space while maintaining functional separation of living, sleeping, and service zones on each floor.

Key design strengths include:

- Symmetric facade with a welcoming porch and contemporary aluminium glazed windows
- Dual-bedroom layouts on both floors with attached washrooms for privacy and convenience
- Provision of underground and overhead water storage satisfying utility requirements
- Clear structural system with RCC frame, beams, slabs, and lintels conforming to standard practice
- Efficient staircase with comfortable riser-tread ratio connecting all three occupied levels
- Roof drainage addressed through directed slopes on the mummy floor plan

This report has been prepared for portfolio documentation purposes, summarising the complete architectural submission drawing set provided for the project.
