Portfolio

PROFILE SUMMARY

Civil Engineering graduate with practical experience in structural engineering, construction supervision, surveying, and building design through multiple industry internships. Strong understanding of construction methodologies, engineering standards, quantity estimation, and project coordination, supported by excellent analytical, communication, and problem-solving skills. Seeking opportunities to contribute to impactful infrastructure and construction projects while continuing professional growth.

EDUCATION

B.Sc. Civil Engineering — COMSATS University Islamabad, Wah Cantt Campus	2022 – 2026
CGPA: 3.75/4.00. Specializing in structural engineering with active research in AI-based structural health monitoring. Expected graduation: September 2026.	
Intermediate (FSc Pre-Engineering) — Wah Hope College, Fateh Jang	2020 – 2022
Matriculation (Science) — Govt. Boys High School No. 2, Fateh Jang	2018 – 2020

EXPERIENCE

Trainee Engineer — Structure Office, NESPAK (Pvt.) Ltd. <i>National Engineering Services Pakistan</i>	14 Jul – 22 Aug 2025
- Structural office experience at one of Pakistan's premier engineering consultancies. - Worked on structural analysis, design documentation, and office engineering workflows.	
Survey Camp — Field Training, COMSATS University Islamabad <i>Wah Campus — Harnoi, Abbottabad</i>	5 Aug – 19 Aug 2024
Intensive field surveying camp covering topographic survey, leveling, traversing, and contouring in real terrain conditions.	
Trainee Engineer — Site Engineer, Winston Developers (Pvt.) Ltd.	Jul – Aug 2024
- Site engineering for a multi-storey commercial building. - Supervised construction activities, monitored quality control, assisted in material estimation and site coordination.	
Trainee Engineer — Site Engineer, Hashim Associates & Builders Pvt. Ltd.	Jun – Jul 2024
- Site engineering for residential housing projects. - Hands-on experience in construction supervision, reinforcement checking, formwork, concrete pouring, and progress reporting.	

KEY PROJECTS

StructInsight AI : YOLOv11-based concrete crack detection and severity assessment system with a Streamlit web frontend.

ETABS Structural Models: Structural analysis and design models built in ETABS.

Primavera P6 Scheduling: Residential construction project scheduling using Primavera P6.

Residential House Architectural Design: Full architectural drawing set for a residential house.

RC School Building Structural Design: Reinforced concrete structural design for a school building.

Quantity Cost Estimation — Multi-Storey RC Building: Detailed quantity take-off and cost estimation.

TECHNICAL SKILLS

Engineering Software: AutoCAD (Expert), MS Word (Expert), ETABS, Revit, Primavera P6, SWMM, RISA 2D, MS Excel (Intermediate), LaTeX (Beginner)

Structural & Civil: Structural Analysis, RC Design, Steel Structure Design, Engineering Drawing, Surveying, Quantity Estimation, Foundation Design, Load Analysis

AI & Programming: Python, YOLOv11 / Deep Learning, Computer Vision, Image Processing (Intermediate)

Professional Skills: Teamwork, Communication, Problem Solving, Time Management, Technical Writing, Report Writing, Project Management, Critical Thinking

LANGUAGES

Urdu — Native | English — Professional

CERTIFICATIONS & AWARDS

- 2nd Position — Open House & Job Fair, Spring 2026 (FYP)
- Certificate of Appreciation
- Certificate of Participation — Civil Nexus 2025
- Certificate of Appreciation — Treasurer, ICE CUI Wah
- CPD Seminar — Finite Element Method for Structural Analysis
- CPD Seminar — Impact of Machine Learning in Civil Engineering
- CPD Seminar — Non-Destructive Test Methods for Concrete Bridge
- Workshop on Introduction to R
- Webinar — AI/ML in Civil Engineering
